Statement on Signing the Treasury and General Government Appropriations Act, FY 2000

September 29, 1999

Today I signed H.R. 2490, "Treasury and General Government Appropriations Act, FY 2000", a bill that contains several important improvements in family planning and child care. This bipartisan bill will give people who work for the Federal Government access to more affordable child care and flexibility in family planning. It will require health plans participating in the Federal Employees Health Benefits Program (FEHBP) that provide prescription drug coverage to provide prescription contraceptive coverage as well, while providing an exception for plans that object to this requirement on religious grounds. The bill also gives Government agencies new flexibility that will allow them to make child care more affordable for lower-income Federal employees. While this bill is not perfect, it does show that we can make progress when we work in a bipartisan fashion.

NOTE: H.R. 2490, approved September 29, was assigned Public Law No. 106-58.

Statement on Signing the Treasury and General Government Appropriations Act, 2000

September 29, 1999

I have signed into law today H.R. 2490, the "Treasury and General Government Appropriations Act, 2000," which provides \$13.7 billion in discretionary budget authority for programs in the Department of the Treasury, the United States Postal Service, the General Services Administration, the Office of Personnel Management, the Executive Office of the President, and several smaller agencies. I commend the Congress for producing a bipartisan bill that allows us to continue the IRS reform effort and the national youth anti-drug media campaign and

to fund important law enforcement efforts and other programs.

The bill provides \$12.4 billion for the Department of the Treasury, including \$132 million for violent crime reduction programs. The Internal Revenue Service (IRS) is funded at \$8.2 billion. I believe that these funds will strengthen the IRS's ability to provide timely and accurate data for American taxpayers. The bill also includes \$144 million for the Earned Income Tax Credit compliance initiative and \$250 million for Year 2000 conversion requirements for IRS computer systems. Law enforcement bureaus within the Department of the Treasury are funded at \$3.4 billion. I am pleased that the Congress has fully funded my request for the expansion of the Youth Crime Gun Interdiction Initiative.

The bill provides \$185 million for the Office of National Drug Control Policy's (ONDCP) national youth anti-drug media campaign. This money will enable ONDCP's national media campaign to continue its effort to change youth attitudes about drug use and its consequences. The campaign is a model public-private partnership, exposing 90 percent of all 9- to 17-year-olds to anti-drug messages at least four times a week.

I am pleased that the enrolled bill requires health plans participating in the Federal Employees Health Benefits Program that provide prescription drug coverage to provide prescription contraceptive coverage as well. I am also pleased that the enrolled bill allows agencies to use appropriated funds to support day care centers at Federal facilities. This provision should improve the affordability of child care for lower-income Federal employees.

Several provisions in the Act purport to condition my authority or that of certain officers to use funds appropriated by the Act on the approval of congressional committees. My Administration will interpret such provisions to require notification only, since any other interpretation would contradict the Supreme Court's ruling in *INS v. Chadha*.

Section 622 of the Treasury/General Government Appropriations Act prohibits the use of appropriations to pay the salary of any employee who interferes with certain communications between Federal employees and
